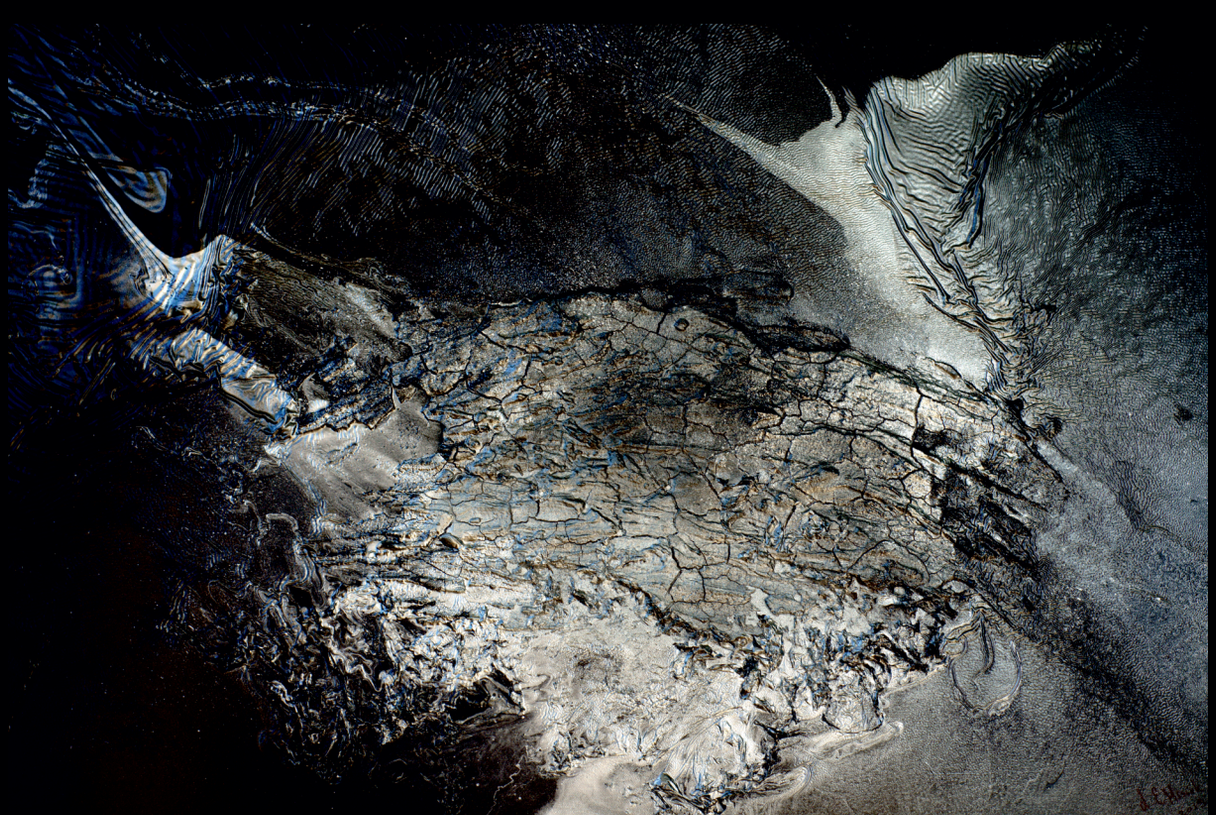
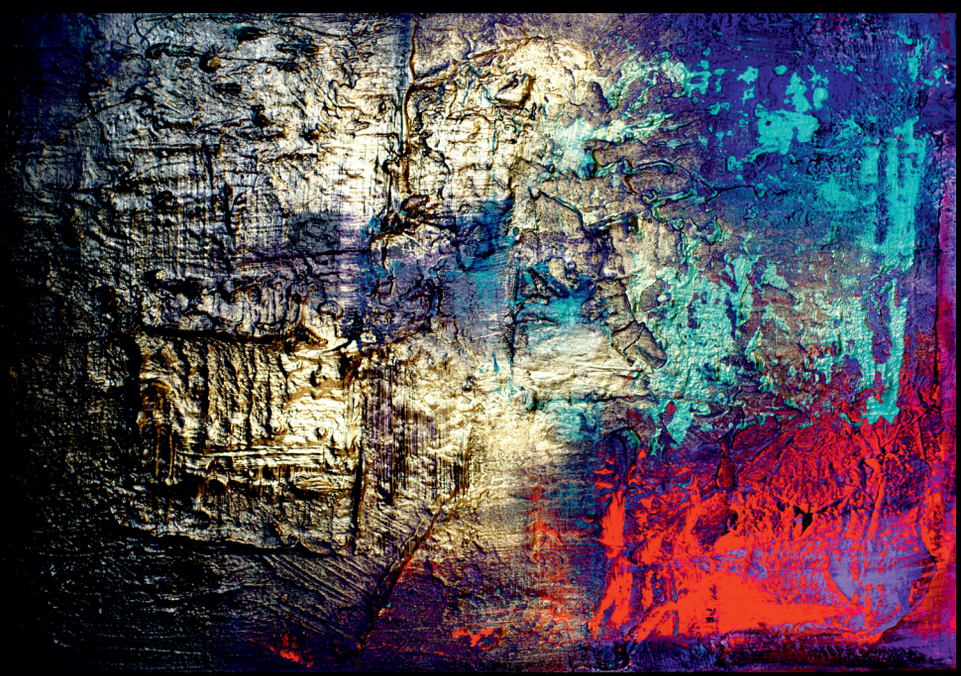
Anna Emilia Misiak

STRUCTURAL PAINTING





We are part of the universe which is energy and we transmute this energy and all materials around us. This is what I do with my art. I use all available materials to create structures that make up the four elements; earth; fire; water; air, and our planets. Its a force that a human can never tame; hence why you find spontaneity and movement in what I create. This is why my paintings touch all senses. I believe that in life, what counts the most is BEING IN IT, then LIVING IN IT...and so I am

Hi, my name is Anna Emilia Misiak. I create structural art. This summer, M.A.D.S Gallery in Milano has selected my work and included my paintings in their exhibition called *Paraiso.* If you would like to have a unique piece of art visit my website.
